1.1   What we did

Used psychopy to create an n-back test, based off of "Matt's miscellaneous PsychoPy code"

1.2   What we want to do

Actually process some code

1.3   some code

1.4   some useful stuff

1.4.1   latex-preview-mode

This lets you preview your report as you make it (in latex)

```
C-c C-e l l
open file.tex
edit text as you please
#+BEGIN_SRC emacs-lisp
  (use-package latex-preview-pane
```

```
      :ensure t
      :config
      (latex-preview-pane-enable)
      )
#+END_SRC
```
